Jonathan Miles Perret

Although Miles lived only eight years, his was a life filled with curiosity, joy and love. He had an understanding of friendship and faith far beyond his years, and he left an impression on all who knew him. When Miles was diagnosed in 1995, his family determined right away that Miles would have as normal and carefree a life as possible. Their journey with him provided firsthand experience of the daily challenges of fighting cancer. Miles Perret Cancer Services was created to help others meet those challenges.
